

ALL Life Science Classes with Mrs. Smith

Welcome Back!

- ◆ All my science classes are paperless this year. This means that students will need to have their laptops charged and ready to go. Students will be using google suites for all their work and my website: ***soujourn.us***
- ◆ The only class that will be using a textbook is College Anatomy & Physiology
- ◆ If student's do not have access to the internet, they must be physically present in the classroom. If this is an issue for you, then please see Mr. Page to work out an alternative plan.
- ◆ Students who are learning remotely must be present online, with their laptops charged and ready to work. This year I have added a "preparedness" grade worth 5% of the total grade. Coming to class unprepared is unacceptable.
- ◆ The list of materials needed for class each day is listed on google classroom and the class website. I will go over this list with students in class.
- ◆ Google classroom is already set up and students have been sent an invitation to join. Each student must join the class.
- ◆ Google classroom currently has the information to the class website, the preparedness booklet, and the class syllabus.
- ◆ College (Honors) Anatomy will be using EMCC site called ***Brightspace***, along with google classroom and the class website. I will help them get started in Brightspace.
- ◆ There is a parent corner set up on the class website that contains all the information you need to help your student succeed this year. You can also contact me through the website.
